Tēnā koe Sarah,

State Services Commission Inquiry into the Use of External Security Consultants

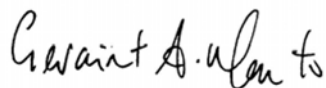

Thank you for your letter dated 23 July 2018 inviting Te Papa to complete a self-evaluation of use of external security consultants. Te Papa has identified external security companies engaged over the period from 2008, assessed the nature of those engagements and has concluded that we have no cause for concern.

Over the period Te Papa engaged a small number of external security companies for security reviews of physical sites, security assessments in relation to a major exhibition, and as technical security experts across procurement evaluations.

In relation to TCIL and associates, Te Papa engaged Thompson and Clark Investigations Ltd on two projects, in 2008 and 2009, to complete security reviews of Te Papa's two physical sites. These engagements were of short duration.

If you require any further information to assist with your inquiry for the State Services Commission, please do not hesitate to contact my office.

Yours sincerely,

Geraint Martin
CHIEF EXECUTIVE
